

PSALT DESIGN

TENT LONDON 19-22 SEPT 2013

Sheffield based furniture and product design studio Psalt Design will showcase their most recent collection including 'Atlas Series', 'Juxta' and 'Myosotis' at Tent London as part of the London Design Festival 2013.

The new collection of work maintains the studio ethos, to create beautifully designed and skilfully manufactured products with a twist of intrigue and humour. The starting point for many of their products comes from working with local manufacturers, workshops and skilled people who share the same passion Psalt do for quality and fine detail.

"WE BELIEVE IN THE PERFECT MARRIAGE BETWEEN CRAFTSMANSHIP AND DESIGN. USING LOCAL MANUFACTURERS AND SUSTAINABLE MATERIALS WHERE POSSIBLE TO PRODUCE A UNIQUE AND DESIRABLE BODY OF WORK"

Psalt Design

The works within the collection are:

Atlas Series: A bench and table inspired by architecture and structural design.

Juxta: A range of wooden clocks that explore different finishes and materials.

Myosotis: A sheet steel noticeboard that helps you organise and arrange memories, keepsakes and notes.

We hope you enjoy our work.
